

D5.1

Demonstration Material

WP 5

Project Acronym: U-QASAR

Full Title: Universal Quality Assurance & Control Services for Internet Applications with Volatile Requirements and Contexts

Project no.: 318082

File Ref: D5.1_Demonstration Material_v1.1.docx

Version: 1.1

Status: Final

Due date of deliverable: M36 **Duration:** 36 months

Start date of the project: 01.10.2012

Dissemination Level: PU Public

List of Beneficiaries

No.	Participant Organisation Name	Participant Short Name	Country
1	INNOPOLE S.L.	INNO	ES
2	Métodos y Tecnología de Sistemas y Procesos, S.L.	MTP	ES

1 Summary

Graphical and textual materials have been produced during the U-Qasar project to demonstrate the results of the project. These demonstration materials have either been used or are to be used by the consortium members. In both cases, the purpose of the demonstration material is to guarantee a clear communication of the project results to the current project stakeholders and to new and potential parties. These parties could either be interested in using U-Qasar results or in investing in further U-Qasar development activities.

2 Introduction

The *U-QASAR* project was launched on October 1, 2012 and it has run for 36 months. Starting November 1, 2012, the project's progress is documented and publicly available on a website at <http://www.uqasar.eu>

2.1 Document Purpose

This report serves as a short documented overview of the *U-QASAR* Demonstration Materials, which fall under the Deliverable 5.1. It does not discuss any of the project's research topics or activities.

2.2 Approach Applied

Each material is described categorized under Video Material, Poster, Presentations and Product Webpage. Each section includes a list of the relevant material and repositories where they are located. Each item is described using a table that includes the identifying information and an explanation of the material and the audience it is intended for.

Files will be accessible via the following Google Drive Link as well as in their corresponding channels in YouTube and SlideShare:

<https://drive.google.com/folderview?id=0B8BxcAi9Zp5KfmdERWZ5bnJOMWpESktUMExKS3ZXekxiV3dheXdITTIFNHFPMDhPWEVpRzQ&usp=sharing>

3 Video Material

YouTube Channel

Title	U-Qasar YouTube Channel		
Address	https://www.youtube.com/channel/UCnq1xOrfG2-5s_XTfaN9RxQ	Size/Length	N/A
Description	YouTube Channel collects all the public videos of U-Qasar. This allows for better searchability and shareability of U-Qasar demonstration videos		
Audience	Potential clients, users, developers, and investors. U-QASAR community		

3.1 Demonstration and Promotional Video

Title	Final Users Feedback		
Filename	Industry-feedback-compilation.mp4	Size/Length	
Description	Final users describe the tools and problems they had before using U-Qasar and talk about how U-Qasar has impacted them and what benefits they got from it.		
Audience	Potential clients, users, developers, and investors.		

Title	Demonstration Video Script		
Filename	demonstration_video_script.pdf	Size	5KB
Description	Script for the demonstration video done collaboratively with the industry partners in a workshop and remotely.		
Audience	U-Qasar community		

Title	Script design workshop outtakes		
Filename	outtakes.mp4	Size/Length	6:06
Description	Workshop ideas for demonstration videos were played out by the consortium members		

	and recorded. They served to understand better their ideas and create the final script.
Audience	U-Qasar community

3.2 Screencasts

Title	Creating a Quality Model with U-Qasar		
Address	https://www.youtube.com/watch?v=9kEJsbwW1yQ	Length	12:36
Description	Screencast hosted in YouTube that describes the steps needed in the U-Qasar platform to create a Quality Model with U-Qasar, defining the objectives, indicators and metrics.		
Audience	Potential clients, users, developers, and investors.		

Title	Creating a new Project in U-Qasar		
Address	https://www.youtube.com/watch?v=2WkdyA09nxs	Length	8:25
Description	Screencast hosted in YouTube that describes the steps needed in the U-Qasar platform to create a Project that depends on a certain Quality Model with U-Qasar. It also links one adapter to the project's quality model.		
Audience	Potential clients, users, developers, and investors.		

Title	Setting up the SONARQUBE metrics in U-Qasar		
Address	https://youtu.be/BNfqkWYKZqE	Length	4:33
Description	Screencast hosted in YouTube. The screencast goes through the steps needed to use external metrics in U-QASAR platform. U-Qasar lets you connect to external tools to retrieve quality data. This data will be used to update the metrics in a U-Qasar project. The metrics will update the Quality Model tree with the new values.		
Audience	Potential clients, users, developers, and investors.		

Title	Script for setting the U-QASAR dashboard and visualizations		
File	Script-dashboard_and_visualizations.rtf	Size	6KB
Description	Script that shows the creation of a dashboard in U-QASAR, adding widgets to the dashboard. It ends explaining how to share the visualizations of the widgets with the team.		
Audience	U-QASAR community		

4 Posters

Title	Simple U-Qasar Poster		
Filename	simple_poster.jpg	Size	1.9MB
Description	This poster explains the basics of U-Qasar and the background of the project.		
Audience	Attendees to conferences around Software Quality and Commercial Software Development. Presentations to partners of the consortium members interested in collaborating. Potential investors.		

Title	Complete U-Qasar Poster		
Filename	complete_poster.pdf	Size	2MB
Description	This poster augments the Simple U-Qasar Poster with more details regarding the implementation of U-Qasar, and the currently supported services		
Audience	Attendees to conferences around Software Quality and Commercial Software Development. Presentations to partners of the consortium members interested in collaborating. Potential investors		

5 Presentations

SlideShare Channel

Title	U-QASAR Slideshare channel		
Address	http://www.slideshare.com/uqasar	Size	NA
Description	As the YouTube channel, the U-QASAR Slideshare channel serves as a public place to share the presentations created by U-Qasar for demonstration and dissemination purposes. The channel increases the visibility of the presentations.		
Audience	U-QASAR Community. Potential clients and investors. Industry workshops.		

5.1 Presentations

Title	U-QASAR: Cómo obtener una visión integrada y objetiva de la calidad del software en los nuevos entornos cambiantes (<i>U-QASAR: How to deal with changing environments and still get an integrated and objective status of software quality</i>)		
Filename	short_presentation_es.pptx	Size	6MB/24 slides
Description	This presentation was used at the Madrid workshop and presented U-Qasar and how it fits in the global market of SQA services. It presents other SaaS tools that could interact with U-Qasar, and also the current solutions for integrating several SQA tools together. Then prepares the audience for a demonstration and the explanation of the main features of U-Qasar		
Audience	Attendees to conferences around Software Quality and Commercial Software Development. Potential clients and investors. Industry workshops.		

Title	U-QASAR and the State of SQA SaaS Tools		
Filename	U-QASAR-SaaS.pptx	Size	3MB/29 slides
Description	This presentation was used at the Bremen workshop and presented U-Qasar and how it fits in the global market of SaaS SQA services. It presents other SaaS tools that could interact with U-Qasar, and also the current solutions for integrating several SQA tools together. It then prepares audience for demonstration and the explanation of the main features of U-Qasar. It ends with a list of the key problems and solutions U-Qasar is targeted to.		

Audience	Attendees to conferences around Software Quality and Commercial Software Development. Potential clients and investors. Industry workshops. U-QASAR community
----------	--

Title	U-Qasar Methodology		
Filename	U-QASAR_methodology.pptx	Size/Length	2MB/26 slides
Description	The presentation goes into detail explaining how to define quality models for measuring software quality using the U-QASAR methodology.		
Audience	Attendees to conferences around Software Quality and Commercial Software Development. Industry workshops.		

Title	U-Qasar Methodology Workshop		
Filename	U-QASAR_workshop.pptx	Size/Length	2MB/37 Slides
Description	The presentation can be used to carry out a workshop with industry experts where a quality model for an agile project is created using the U-Qasar methodology		
Audience	Attendees to conferences around Software Quality and Commercial Software Development. Industry workshops.		

Title	U-Qasar Pitch		
Filename	U-QASAR_pitch.pptx	Size/Length	1MB/2 Slides
Description	2 slide presentation arranged for the 2 minute elevator pitch at CloudWatch on the 25 th March 2015		
Audience	U-QASAR community		

6 Product Website

Title	U-Qasar - The SQA Ring		
Filename	product-page.zip (http://get.uqasar.eu)	Size	1MB
Description	Product page for U-Qasar, asking people to download the code or browse the online version of the platform. It includes real testimonials, with no names though, and links to the screencasts.		
Audience	Potential clients, users, developers, and investors.
